ODOR REMOVING BAG DIRECTIONS FOR ELIMINATING DEAD ANIMAL & RELATED URINE/FECES ODORS :

- If possible, removing the dead carcass prior to deploying the bags will improve your results.
- A minimum of three bags is recommended for faster results
- Remove the clear shrink wrap from the bag and hang 1-3 bags in every room you smell odor.
- If you believe a dead animal is in attic or crawl space, hang 1-3 bags there as well.
- One bag will cover approximately 100 square ft.

Ventilation is very important. Bags should be hung so air can flow through them, activating the product.

ODOR ELIMINATING GRANULE DIRECTIONS FOR ELIMINATING PET ODORS :

- Remove feces and excess urine.
- Sprinkle on carpet, rugs, tile, linoleum or hardwood floors. Leave on overnight, then sweep or vacuum. Clear The Air pulls odor from carpet, padding and sub-floor.
- Sprinkle directly on furniture. Leave overnight, then vacuum or shake off. Will not harm upholstery or leather.
- Sprinkle on pet bedding or clothes. Leave over night, and then shake off.
- Add to litter box to eliminate odors. Add ½ cup each time litter is changed or scooped.
- Sprinkle on bottom of animal cages. Safe for pets even if consumed.

Typically one application will eliminate all odors; occasionally a second application is necessary.

Coverage:

14 oz canister - up to 100 square feet
