

FRESH WAVE IAQ READY TO USE MIXING INSTRUCTIONS

AIR & SURFACE LIQUID

DIRECTIONS:

Fresh Wave IAQ Air & Surface RTU Liquid can be used in the following applications*:

- **TRIGGER SPRAYERS:** For immediate, targeted odor control, spray into the air or directly onto water-safe surfaces such as fabrics, upholstery, furniture, counter tops and cabinets.
- **FOGGING:** Use a full strength mixture at 1.5 oz. per 1,000 cubic feet. For best results, shoot 20 microns or lower.
- **ROOM ODORS:** Add 2 oz. per gallon of water to a cool mist room humidifier.
- **MOP WATER:** Mix 8 oz. with 2.5 gallons of water.

** Suggested amounts. More or less can be used depending on the intensity of the odor.*

CARPET & UPHOLSTERY ADDITIVE

DIRECTIONS:

Use 2 oz. RTU Additive per gallon of water in extraction type cleaners or 4 oz. per gallon when using the bonnet method. More or less can be used depending on the intensity of the odor.

LAUNDRY ADDITIVE

DIRECTIONS:

Add 2 oz. RTU Additive to washer during rinse cycle. For difficult odors, let soak for 10 minutes. More or less can be used depending on the intensity of the odor.
