All packages, bottles, jars, containers of any sort must be labelled with owner's name, CONTENTS & telephone number. Otherwise, WCS cannot be held liable for their receipt.

It is strongly recommended that gland shipments be sent prior to May 1st. Due to the summer heat, shipments sometimes remain in a post office or container over a weekend and spoilage has occurred. Further we would strongly suggest that any glands (or other animal products, essence etc.) are SHIPPED on a Monday so they don't sit in a Post Office or warehouse over a weekend. So it is moving all the time! Please notify WCS when you have shipped.

Note: We are looking for ADDITIONAL SUPPLIERS of Mt. Lion and Black Bear Urine.
