

REMOVE CUSTOMERS ODORS EVERY TIME WITH; EARTH CARE PRODUCTS Odor Remover “GRANULES”

Available in 14 oz. **CANISTERS (CA14)** and 9 lb. **BUCKETs (BU9)**

EARTH CARE's Odor Remover “GRANULES” are made from a natural earth mineral that is mined and processed to attract and remove odor and smoke molecules. It is bio-degradable, non-flammable, non-toxic, safe around children, pets, & mother earth. It is easy to use and contains no chemicals, toxins or fragrances. **EARTH CARE** does not mask odors it removes them.

EARTH CARE can take from one hour to several days, but it is more effective since it removes odors versus masking them and is very simple to use and cost effective.

ACTION TO TAKE FOR ALL ODOR PROBLEMS:

Sprinkle granules out on any surface to remove odors from chemical spills, skunk spray, urine/feces odors or any other odors or as an absorbent to soak up liquids.

When using on carpet or any surface leave down 24 hours before vacuuming or sweeping.

When used outdoors on the ground it can be blended into the ground after it has had a chance to adsorb odors.

Odors usually are adsorbed within 1-24 hours

COMMON USES FOR ODOR ADSORBING GRANULES:

SKUNK SPRAY: Sprinkle **EARTH CARES** odor adsorbing granules on the ground or inside on carpet or any surface to soak up odor from spray. Leave granules in place for 24 hours before sweeping or vacuuming. Granules can be blended into the soil as it is an excellent soil amendment.

URINE/FECES ODORS: Remove odor of urine and feces from areas that have been infested with rodents or from pets, or other animals. Works on carpet even when urine odor has been soaked into it for a long time.

Works in animal cages when sprinkled on the bottom and is safe for pets even if eaten. Follow procedure listed above.

TRASH BINS: Sprinkle one cup on top of trash in bin daily or as needed to remove odors.

OIL SPILLS: Pour granule over wet oil spots and sweep up after oil is adsorbed.

ASH TRAYS: Pour granules in ash trays to adsorb the smell of cigarette smoke.

CAT LITER BOXES: Sprinkle granules on top of liter as needed. Works best when you add granules each time liter is changed. Also, **EARTH CARE's** Odor Remover “**BAG**” product works in adsorbing odors from cat liter box.

MATTRESSES: Sprinkle granules on mattresses that people have urinated or vomited on and odors will be adsorbed. Works best when granules are left 24 hours.

KENNELS: Works Great in removing odors associated with kennels such as dog, urine, & feces odors. After dog urinates on dog run sprinkle granules on kennel flooring and odor is adsorbed. Safe when left in place.

OTHER EARTH CARE PRODUCTS:

BAG: Used to remove dead animal and related urine/feces odors. Also effective in removing odors from cat litter boxes (along with granules), skunk spray, cigarette smoke, fire place smoke odor, nursing homes, refrigeration units, RV's, gyms, locker rooms, photo shops, veterinary offices, and restrooms.
