

THE MACABEE GOPHER TRAP

FREE

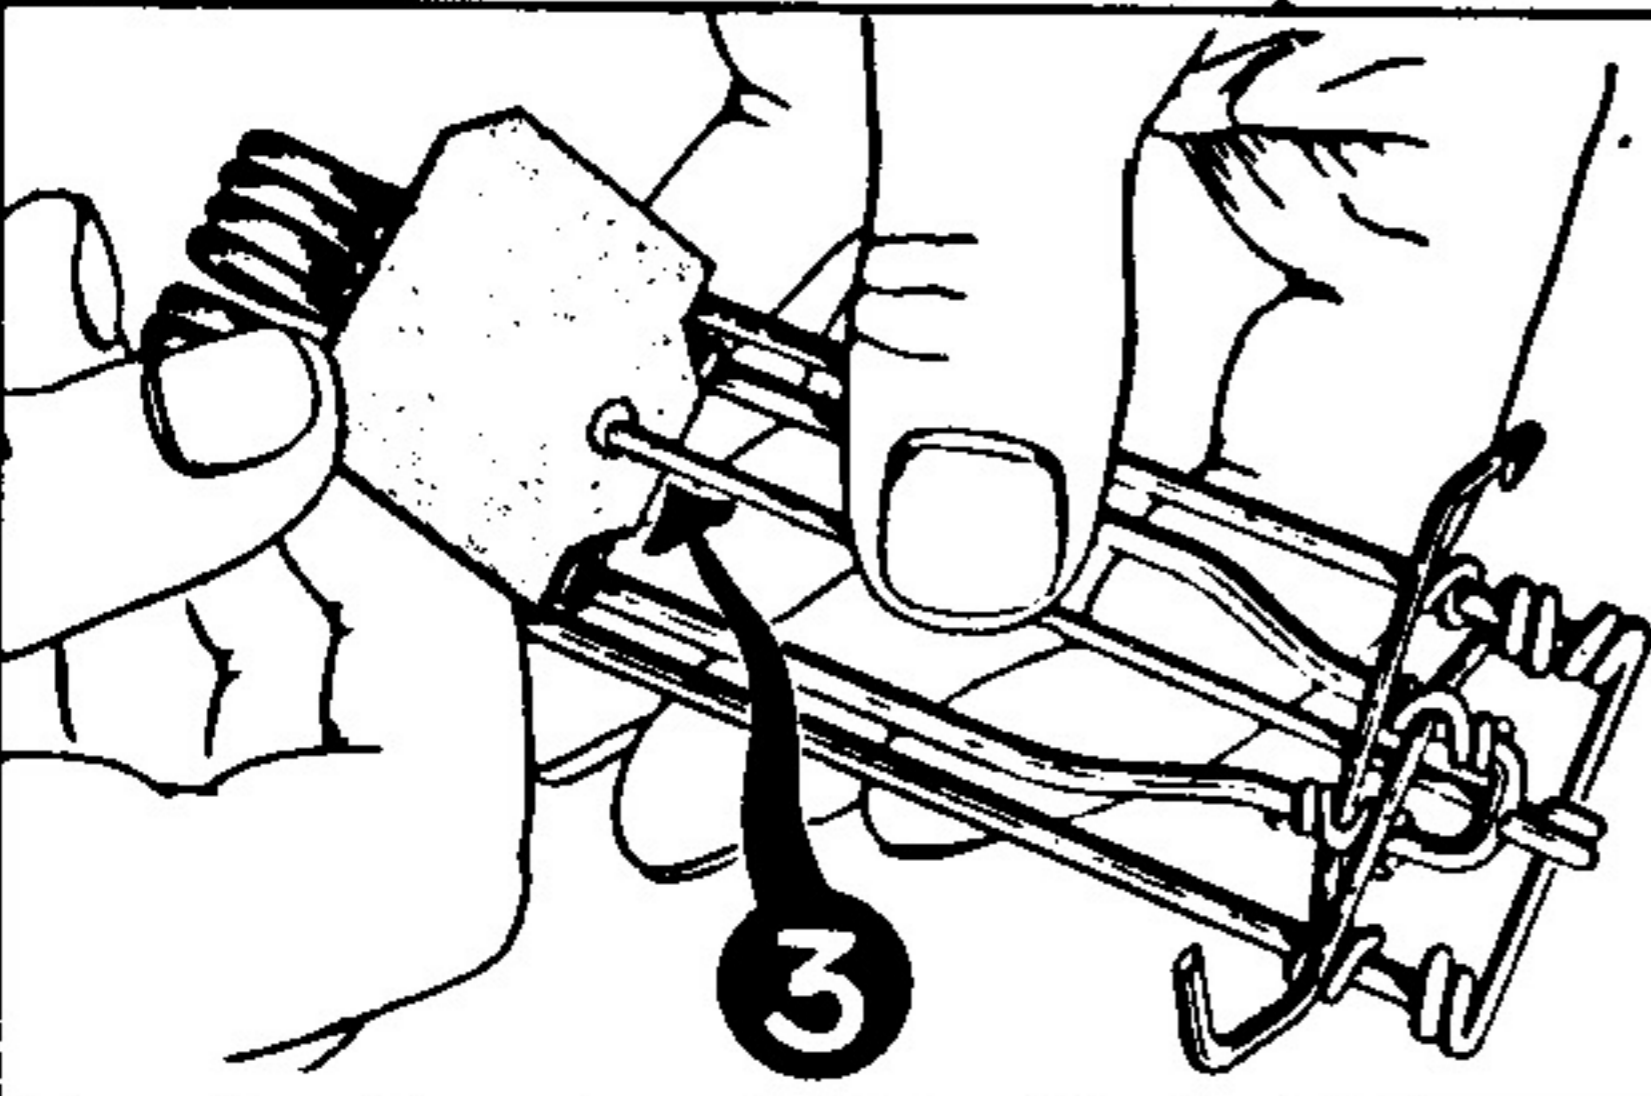

DIRECTIONS FOR SETTING

Hold trap as shown. Left index finger holds trigger wire ① UP thru frame. [Trigger must swing up from under frame - NOT over jaws].

Note small "hook" on curled end of trigger wire ②. Press thumbs down; with left index finger, guide "hook" over end of frame.

Still holding frame down place straight end of trigger wire ③ thru small hole in plate.

Two methods of placing traps for pocket gophers:
Two trap method (B) is recommended.
